

REMARKS

Applicant is responding to the February 10, 2005 Notice of non-compliance and has properly numbered new claim 28. Applicant thus has added new claims 25-28 to claim additional elements of the invention. These amendments are not entered in order to alter, narrow the scope or in any way effect the patentability of the previous claims but rather are entered to cover additional features of the invention.

For the foregoing reasons, applicant requests that the Examiner enter the amendment into the record. The Office is authorized to charge all fees, if any, associated with this Amendment to Deposit Account No. 13-0019.

Respectfully Submitted,

Dated: February 17, 2005
